Thanks Marie. I heard yesterday that this was in the works. You are correct that it does not really clarify, and furthermore it's the Police Commission, not the Mayor, who should have issued the directive to the Department. If the Mayor disagreed with the version of 56.11 that was approved by Council he could have vetoed it, not allowed it to become law and then tell the PD to not enforce.

And I confirmed today that the LAPD's point person on homelessness did not receive an invitation to St. Sen. Carol Liu's roundtable last Friday.

Here it is, basically it asks the departments to post for 72 hours instead of 24 hours.
Definitely, not the most helpful clarification.

Thanks, Marie
